**DETAILED ACTION**

***Election/Restriction***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 12-17, 18-25, 38-42, 49-55, drawn to transmitting/forwarding call to IP network , classified in class 455, subclass 417.
  - II. Claims 8-11, 43-48, drawn to processor detecting network interface and priority, classified in class 455, subclass 435.3.
  - III. Claims 26-27, 56-59, 66-71, drawn to adapter, classified in class 370, subclass 395.3, 395.65.
  - IV. Claims 28-33, drawn to plurality device, classified in class 370, subclass 328.
  - V. Claims 34-37, drawn to computer, classified in class 455, subclass 524.
  - VI. Claims 63-65, drawn to storage, classified in class 370, subclass 429.
1. The inventions are distinct, each from the other because of the following reasons:  
  
Inventions I, II, III, IV, V, VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination group VI has separate utility such as storage. See MPEP § 806.05(d).
  2. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required

Art Unit: 2617

because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

3. Telephone call was made to Jeffrey Kaplan at (732) 634-7634 on 12/05/2006, leave message to request an oral election to the above restriction, but did not result in an election being made.

4 Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kiet Doan whose telephone number is 571-272-7863. The examiner can normally be reached on 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph H. Feild can be reached on 571-272-4090. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
